<p>What is Bank On South Alabama?</p>	<p>Bank On South Alabama (BOSA) is an initiative started by representatives from community organizations, governmental entities and financial institutions (FI's - banks and credit unions) in an eight county region in Southwest Alabama. The goal is to assist unbanked and under-banked individuals access low and no cost checking/savings accounts and small dollar loans with mainstream FI's. It is an anti-poverty and asset-building strategy to help families build wealth and learn better ways to handle personal finances. Financial education is available for participants - see below.</p>
<p>Why was this initiative created?</p>	<p>In the Escambia, Monroe and Conecuh area more than 15% of households have neither a checking nor savings account (unbanked) and more than 24% have an account (under-banked), but both groups rely on alternative financial services such as check cashers and payday lenders. Paying unnecessary and high fees hinders household financial stability and may cost up to \$40,000 in a lifetime in fees and interest. <p>What features should I offer a customer who asks for a BOSA account?</p>	<p>BOSA financial institutions have agreed to offer the following:</p> <ul style="list-style-type: none"> • Help customers open a basic low or no cost checking and/or savings account • Fully disclose and explain all fees to customers at the time of account opening • Refer any customers unable to open an account with your FI to another partner FI or to United Way 2-1-1 for more assistance • Provide information about the financial education workshops
<p>What should I tell clients are the advantages to having a bank account?</p>	<ul style="list-style-type: none"> • Safer and more secure especially in times of crisis; fire, storm evacuations, emergencies • You can build and strengthen your credit (if you have an account with a credit feature) • Prepaid or reloadable cards do not build credit and may have high fees • You can save by not having to pay fees to cash a check or buy money orders • Pay bills online, by phone or by regular mail with a checking account for low cost or free • Savings accounts are vital in developing financial stability for families
